States that if it is within the province of the DG of Eon to order the work no question will be raised about it, that if formal permission of Govt is needed it is for the DG to obtain it, and that while the Work of the Com at Nyme has been put in hand on account of its importance probably it is not proceeding fast enough on account of the limited staff at the Nyme Branch Press

4) From the 2 letter of the DG/Eon it will be seen that the work is not strictly departmental and as such must be paid for by somebody The Committee is to all appearance an informal body through in close touch with the Eon Depts Perhaps the proper course would be to allot some funds to Eon Committee for such purposes, and ask the Committee to get all such work done at private Presses such as Pr A Press if not in the Govt Branch Presses

I agree

My opinion has been confirmed by the increase of work in the Press and I don't think we can in the circumstances have a general ~~~~ but ~~~~ Committee and as suggested by the Dy Secy Education may Govt to do any work sent to him by the Dy Secy Education for all work which does not fall within the scope of the standing order & which Govt does not undertake ~~~~ owing to pressure of their work the best course will be for the Dy Secy Education to get the printing

My dear Mr Hiriyannaiya

I do not know if any orders have been issued to the Superintendent of the Government Press not to do any printing works outside the sanctioned groove such as was being done hitherto without the special sanction of Government in each case Whatever it may be I find that the wor of the Education Department is much put back by not having the ready help of the Press at a time when the demands on the Department are great and pressing on every side and all of us are obliged to work under high pressure There is at present a Committee sitting at Mysore consisting of a number of Missionary and other non-official educationists and of some Government educationists to co-ordinate the curricula of studies for the next school-year commencing from May next and the Committee has been doing honorary work for the

Bangalore 19th March, 1914

Dear Mr Balasundaram Iyer,

I return herewith the two letters you sent me last evening, asking for my views upon the subject

The facts are these I met Mr Spencer, one of the Committee, some time ago, who mentioned to me what was contemplated, and I told him that he could send the work to the foreman at the Branch Press, and that I would get the formal permission of the I -G, of Education to do the work It is this permission that I have asked him for If it is within his province to order the work, of course I raise no further questions about it If it be necessary to obtain Government's formal permission, then it is for the I -G to obtain it I saw the important nature of the work, and therefore did not hesitate to put it in hand The trouble probably is that it is not proceeding fast enough for the Committee As you know, our Mysore staff is only a limited one The Rev Mr Spencer asked that the work might be done at Mysore to facilitate the passing of proofs I will ascertain toaday just how the work stands

Yours sincerely,

Lewis Yates
